III. LSIC

I. Carrie Beatty

- SB 451 – Killing this bill was important but what we are still worried about is taking away teacher seniority, Educational Savings Accounts and charter schools.
- HB 2730 – Clean pay raise – we worry they will be adding amendments to benefit charter schools and ESAs.
- Hearing tomorrow morning for 2730– Charter school representatives will be speaking at the meeting.
- Unions state that pay raise is not what is important – it is keeping out the ESA and charter schools. This is what could send teachers back out on strike.
- We are also watching HB 3117 – It is making it illegal for legislators to negotiate with strike organizers and this bill is being fast tracked.
- We are also watching a bill that will change the school calendar – Start Sept 1 and end May 30 – 170days – still in the house or senate. If it would pass it would go into effect July 1.
